

PLANNING YOUR KITCHEN

COOKING BEGINS WITH ORGANISED UNITS

ARE YOU PLANNING A NEW KITCHEN?

Then do it with peka. We will pull out all the stops to ensure that your kitchen not only looks good, but also – and more importantly – makes your work easier and takes some of the stress out of your day-to-day life. From spacious larder unit pull-outs and smart corner storage solutions to handy waste systems, peka's ingenious mechanisms and kitchen and furniture fittings will soon have you feeling right at home in your new or renovated kitchen.

MORE THAN JUST A PLACE TO COOK

A tastefully designed kitchen is the heart of a home – especially if it is open-plan, as is often the case nowadays. It is a place to spend quality time with your family, cook and catch up with friends, enjoy a glass of wine with someone special – or even have a bit of quiet time alone at the breakfast bar, with all the ingredients for your favourite muesli to hand. Since it plays such a central role in your household, your own custom kitchen should reflect your tastes and your joie de vivre whilst also providing comfort and convenience.

A PRACTICAL KITCHEN, DESIGNED WITH YOU IN MIND

Kitchens are usually planned on a computer, using simulations to help you visualise what your kitchen will be like before it is built. However, a kitchen's interior is far more important than its exterior – having a ready response to every storage need makes your life so much easier.

So when you are planning your kitchen, take a minute to consider where you can store your groceries, pots and pans, cleaning products, tableware and more so as to make best use of space and always have the items you want on hand when you need them. We can offer a wealth of practical advice to help you create the kitchen you want: a practical kitchen, designed with you in mind.

USE OF SPACE

«Our kitchen is great because we can use every last inch of space in it.»

Choosing the perfect kitchen units is not enough to guarantee you the perfect storage space. Only by selecting the right units for your kitchen layout and the right interior fittings to match can you be sure of enjoying maximum accessibility and convenience. peka's corner unit and larder unit pull-outs make full use of the space in your kitchen units and keep all your tools and ingredients within easy reach.

Storage space: use every last inch of space.

→ **Magic Corner corner pull-out**

Thin-walled pull-out shelves and dividers make the most of the available space.

→ **Extendo pull-out shelf**

Narrow pull-outs give an excellent overview of all your stored items.

→ **Standard 150 larder pull-out**

Height-adjustable shelves help you to use your storage space flexibly.

→ **Convoy larder pull-out**

Double your storage space with dual-level shelves.

→ **Extendo extra shelves**

ACCESSIBILITY

«My perfect kitchen? One where everything I need for cooking is always within easy reach.»

When planning your unit interiors, make sure you can access all the storage space they offer. Spaces that are very high up or very low down – or very deep in the unit – can be hard to get to. peka's storage mechanisms and systems bring everything within easy reach – however far away it may have seemed at first glance.

Easily reach to the very top, bottom or back of your units.

→ **Pegasus shelf lift**

Pull-out systems for easy access and a clear overview.

→ **Extendo pull-out shelf**

Good organisation = opening fewer cupboards when you cook. Cutting out unnecessary movements.

→ **Kitchen Tower and Snello base unit pull-outs**

Easy access to unit contents from three sides.

→ **Pleno Plus larder pull-out**

FOOD STORAGE

«My units should be organised to suit me,
not the other way around.»

The major advantage of centralised food storage: you know exactly where to find what you want and you do not need to waste time searching for it. An organised food storage system saves you both time and money: it eliminates the need for walking around and, more importantly, cuts out unnecessary duplicate purchases. peka's contemporary kitchen larder organisers are highly versatile and can easily be adapted to suit whatever you want to store.

A clear view from the side.

→ **Standard larder pull-out**

Shelves with closed bases stop food from falling through and are easy to clean.

→ **Extendo pull-out shelf**

Flexible systems for dividing up your storage space.

→ **Wooden boxes**

Store your groceries in one central unit, not in different cupboards.

→ **Convoy larder pull-out**

Store bottles and condiments together in a smart base unit pull-out.

→ **Snello base unit pull-out**

WASTE DISPOSAL

«We hardly ever think about waste, but it causes so many problems in the household.»

Which piece of kitchen equipment is used most often? The waste bin, of course. With that in mind, it is worth spending a few minutes thinking about waste disposal when you plan your kitchen. After all, a well-planned waste system makes it a lot easier to clean up. A good waste system – like peka's, for instance – should be modular and should be tailored to your requirements.

What do you want to store in your waste system?

→ Oeko waste system

Dishwasher safe materials and an easy-clean design

→ Oeko recycle bins

Changing bin bags is child's play when your bin has a smart tensioning system

→ patented tensioning system

Choose a bin that lets you fill bin bags right up

→ Müllboy Big waste system

COLOURWAY: ANTHRACITE

A PERFECT MARRIAGE OF WOOD AND METAL

Warm, natural colours and materials are the latest trend in the furniture world. Wood and metal – for instance, oak and steel – complement one another and make for aesthetically appealing pieces.

The lines between the kitchen and the living area are becoming increasingly blurred, making style, design and functionality more important than ever. When teamed with light wood, anthracite interior fittings made of coated steel project a subtle air of understated elegance.

Excellent organisation and a clear overview of all your supplies.

Hochschrank Pleno larder pull-out: Just open the unit doors to make the unit's contents glide out smoothly

Hochschrank Standard larder pull-out: The handy front pull-out for practical kitchens

Extendo Libell larder pull-out: The flexible pull-out shelf that is right at home anywhere

Extra shelves for Extendo: Creates an additional shelf level

Day-to-day use soon highlights the difference between good design and perfect design.

Snello base unit pull-out: The space-saving pull-out system for compact kitchens

Pegasus shelf lift: For easy access to high shelves

Items that belong together
should be stored together –
in a single unit.

Kitchen Tower base unit pull-out: Compact design
for efficiently storing your most-used kitchen utensils
in one place

Magic Corner Standard corner pull-out: Just swing the front panel and the front shelves to one side and the back shelves automatically slide forwards

Sesam Standard and Sesam Mini (left) for cleaning cupboards:
For organised storage of cleaning and housekeeping items

Even a cleaning cupboard can be neat and attractive!

Libell hook rail: This classic rail with six hooks has a wide range of uses throughout the home.

COLOURWAY: WHITE

—

LIGHT, BRIGHT WHITE

Bright, fresh white has an inspiring, calming effect and lightens any room. Clean, straight lines create an elegant, peaceful ambiance and make the space attractive - no embellishment required.

Minimalist design blends beautifully with simple, linear architecture and sets it off to best advantage. Interior fittings made of white coated steel are a perfect match for white furniture or, indeed, furniture of any other colour.

FRONT PANELS, UNITS AND FITTINGS FORM A HARMONIOUS WHOLE

Nowadays, kitchens open onto living areas, creating a shared space for cooking, living and relaxing. So it is only natural for you to pay more attention to the materials and surfaces you use in your kitchen. And it is only natural to want outstanding design on the inside of your units too.

We have partnered Fiore shelves with oiled oak rails that blend seamlessly with wooden front panels and warm colours. These attractive interior fittings can also be combined with glass, compact laminates, aluminium, or any other material of your choosing. Let your creativity flow!

A centralised food storage system cuts out the need to walk around looking for items and saves you time and money.

Hochschrank Standard larder pull-out: The handy front pull-out for practical kitchens

Hochschrank Pleno Plus larder pull-out: Laid out just like a refrigerator: The small shelves built into the doors offer easy access and the larger shelves slide out of the unit automatically when the doors are opened

PEKA'S OTHER AREAS OF EXPERTISE

DRESSING ROOM AND LIVING AREA

It is important to bear storage space and convenience in mind when you are planning your dressing room or living room units.

Pull-out shelves give you a clear overview of every last item stored in your wardrobe. Dresses, shoes, trousers or accessories – choose the right peka storage solution to store all your favourite items carefully and stylishly.

BARRIER-FREE LIVING

peka's product range features a lot of items that are perfect fits for barrier-free kitchens and living areas.

They help people with limited mobility to independently improve their quality of life by making things that bit more comfortable and convenient.

ABOUT US

Your enjoyment of your home is our chief concern. We at peka are passionate about enhancing your enjoyment of your home with our practical, flawlessly made furniture fittings that combine an attractive appearance with unmatched quality.

We have been developing and manufacturing pull-outs, accessories and smart interior solutions for the kitchen and furniture industry for over fifty years. Thanks to our steadfast commitment to finding out exactly what our customers want, our products are always designed to respond to real needs, so it is only natural that they stand out through their user-friendliness, unparalleled quality and space-saving design.

Our unwavering dedication to producing inventive, space-saving solutions and our

resolute refusal to compromise on quality and functionality have made us a global leader in our industry. Today, we are one of the top market providers of larder unit pull-outs, slide-out corner systems and ecologically designed waste sorting systems. Our numerous international patents stand testament to our ingenuity.

peka-metall AG was set up as a family-run business in 1964. Its head office is in Mosen, on the shores of Lake Hallwil near Lucerne. As an independent Swiss manufacturing and trading company, it has established a leading position in the furniture sector. We currently employ around 130 people and sell our products in over 50 countries around the world.

peka – combining smart innovations with Swiss quality since 1964. 

ISO 9001
BUREAU VERITAS
Certification

We remain committed to our high standards: We have developed and manufactured fittings and accessories for kitchens, bathrooms and living spaces at our site in Switzerland since 1964. Our 50 international patents ensure that the original products are always better than copies.
